Statement of.....

Policy and Responsibility

SUBJECT: STUDENT GROOMING AND DRESS STANDARDS

Students in the Murray School District are expected to keep themselves well groomed and neatly dressed while at school or at school functions. Clothing or grooming which is conspicuous, extreme, odd, which may draw undue attention, distract, or tend to interfere with the educational atmosphere at school/school functions will not be allowed.

Students violating the dress code shall be asked to remove/correct the offending items or return home, with parent notification, to change their attire.

The School Board delegates to the local school administration the responsibility of the implementation of this policy. The local schools will develop their local grooming and dress standards in cooperation with their School Community Group. These standards will be published in the student handbook. The standards will be reviewed by the District Administration and copies will be given to the School Board.
